Foreign Subscriptions, \$7 to \$10 a Year. The subscription price for papers forwarded to any part of America is 7.00 per annum, which incindes the Hawaiian post-age only. All papers for European ports will be charged 'se postage demanded at the post-office, which varies from 4 to & sents on each single paper.

IF SUBSCRIPTIONS PATABLE ALWAYS IS ADVANCE.

IF Communications from all parts of the Pacific will always be very acceptable.

TP Persons residing in any part of the United States, can result the amount of subscription dues for this paper in Ameriean postage stamps.

PLAIN AND PANCY BOOK AND JOB PRINTING. CF WILL-READS, VISITING, BUSINESS AND ADDRESS CARDS printed in the highest style of the art.

Foreign Items.

Many of the old-line Democrats say that if Charles Sumner is to get on to their party they intend to get off.

A shoddy matron told a gentleman friend that one of her lovely daughters was " bluenet," and the other a " bronze!"

The Cleveland Herald says that Greeley writes thirty letters a day, but as nobody can read them they will be barmless against him.

Mrs. Partington awakes from a long slumber to say that she thinks this thing of shaking hands across the bloody sarcasm is all tomfoolery.

An English chemist avers that the manufacture of wine is now conducted on such highly scientific principles that grapes are gradually being dis-

Among the ridiculous bets of the campaign is one made by two men in Salt Lake City, in which the loser agrees to wear a Chinese suit of clothes for ninety days. The Mikado of Japan has appeared in public in

the glory of a civilized dress-coat of blue cloth. ornamented with any quantity of gold Ince and An Iowa paper declines to publish the name of othe prettiest girl in that city. The editor says

his wife may tell if she wants to, and he will pay the bills for all the jute that the young ladies pull to pleces, but he thinks he is too young to The Illinois campaign promises to be lively. One of the journals there having claimed " an-

other Joliet man out for Greeley, ' the opposition paper rather capped the boast in this way: Yes, he was pardoned out. He will not take the stump, but he will take anything else he can lay his hands on." Spain is very slow in emancipating the slaves of Cuba. In 1869 a decree for gradual emancipation was passed, and the king has just signed the rules intended to enforce the "preparations" for emancipation. At this rate the children just

born in sinvery are likely to die in it at a good ing Journal, very drunk, fooled a rattlesnake which he found on the common, by letting it bite him fifty times. A snake is fooling away its time in biting a Louisville man. They are not

afraid of snakes down there until they get into

A lady, who loved Bulwer, entered a bookstore just as one of the clerks had killed a large rat. "I wish to see 'What He will Do with It," said she to a boy behind the counter. "Well," said the boy, "if you will step to the window, you will probably see him sling it into the back

The culture of sugar beets at the agricultural college at Amherst will be carefully carried on this year, for the purpose of finding accurately the lowest cost of mising the beets. Six hundred dollars' worth of machinery has been procured in Europe for the sowing and harvesting processes. Five acres, of the electoral variety, will be sown this year. The bill just passed by the Senate for the encouragement of beet sugar manufacture, exempts all such manufactories from taxation for ten years, which is equivalent to a bonus of \$5000. A like bill has just passed in New Jersey, at the suggestion of President Clark.

Dental surgery has added a new achievment to its skill and discovery. They now take out a tooth, remove the nerve, cleanse, scrape and purify it and then replace it, instead of putting in a false one. A case is reported in London where a sufferer from toothache had the disturber of his quiet taken out and replaced, and in this manner got rid of the pain. It is said that this experiment has also been successfully tried in Boston. This may be an important discovery, yet it is difficult to see how it can become very popular. Most people are only too glad to be rid of an aching tooth, and are little inclined to restore it to its former usciulness.

" Greelev bitters" are for sale at some of the drinking places. They cause terrible sickness, but they have curative qualities. The bowels of the drinker are one moment in a state of much eruption, but the next moment all is peace and the drinker yearns for more. The hitters are composed of 900 ingredients, each differing totally from all the others, and all warranted to be soundly Republican or Democratic, as the case may be. Whoever has mastered his stomach sufficiently to hanker for boiled crow relishes the bitters; but the amateur is also safe, for he merely has to refer his sickness to his congressional district and go on as if nothing had hap-

A correspondent of the New York Sun relates the following about a remarkable marriage ceremony which took place at Hartford, Conn. The letter is dated August 13th, and is as follows : An imposing ceremony was performed in this city on Sunday. Miss Estelle Sarah Livingstone, of England, heretofore an Episcopalian, renounced her faith and professed the Jewish religion, partly for the purpose of marrying Dr. Louis J. Jordan, late of the English army, but now of New York, and partly because it was her conviction that Judaism is the true faith. This belief had been established in her mind before she became engaged to Dr. Jordan. She has been some time under the care of Dr. I. Mayer, late rabbi of the Congregation Beth Israel in this city, who conducted the ceremonies at Miss Livingstone's reception into the Hebrew fold, and of her marriage to Dr. Jordan. The lady is described as 22 years old, coming from one of the best families of England. and of fine education, and Dr. Jordan as a wealthy gentleman of large mcome, and 37.

An honest man of Islington bought a " milkwalk "in London, the seller offering him at the same time, for £30, a recipe for adulterating the milk. The offer was indignantly refused. The honest man furnished his customers with a pure article, and should have made his fortune; but, instead, he lost every one of them. They complained, we are told, of the color, the taste, the effects of the liquid, accused him of adulterating it, and went to other dealers. In despair, he bought the offered recipe. It gave directions for watering the milk, and for compounding a mixture (a rank poison,) one drop of which
ing a mixture (a rank poison,) one drop of which
In the City of Honolalu, is now offered by the Undersigned. He
Diseases, Asthma, Sick Headache, Diseases of the Throat, would give a pan of milk the appearance of cream. The purchaser recoiled from such a course, made another effort to find customers for pure milk, failed and sold out. This story may not be believed; but a similar fact is related of a large number of Boston people, who actually refused pure for adulterated milk.

Notwithstanding the fact that the natural intelligence of the French people is very great, the education of the masses, especially in the rural districts, has been frightfully neglected under imperial rule. Simultaneously with the establishment of republican institutions in France, we see the subject of introducing a broad and liberal system of instruction by the government discussed, and urgent appeals offered for such a policy. A petition in favor of compulsory education, signed by 547,761 persons, was lately presented in the National Assembly at Versailles, another, with 383,391 signatures, asked that instruction should also be gratuitous, and still another, with 348,-265 names attached to it, urged that education should be compulsory, gratuitious and secular. President Thiers is in favor of the most liberal policy in this important matter.

Practical Sonp Boiler. Lelco, King St., Honolule SOMETHING NEW and USEFUL! FISHER'S

For Sale at Lloyd's Grocery Store, Fort Street, In quantities to suit. THIS IS ONE OF THE BEST LABOR-SAV-ING Compounds ever invented; it is something that will not wear out clothes by hand rabbing, or eat them up with strong chemicals. The ingredients are proportioned so that they are quite harmless. Who will wear themselves out in the labor of washing, when it can be slone with so much less labor and with he'p of a little soap? Try it.

DIRECTIONS FOR USE.—Put the clothes in soak over night in cold water. If there should be any spots to be removed, or the clothes particularly dirty, rub on some common soap before putting to soak, or put a little of the compound into the water. In the morning put your boiler over the fire, and to every five gallons of water put in one pint of the compound. Wring out the clothes and place them in the boiler, and gradually raise that the coldine report is the scalling report.

Chemical Washing Compound!

Constantly on Hand, the VERY BEST Wring out the clothes and place them in the boller, and gradually raise the temperature up to the scalding point, stirring the clothes well with a stick every few minutes. Drain well, rings twice in clean cold water, ready for blueing, after which hang out to dry. Very dirty clothes may be bolled ten minutes, but not longer, as they are apt to turn yellow. Should some pertable very dirty, it would be well to rub a little while the water the heating. The finer clothes should be gone through with first separately, otherwise colored or very dirty clothes will be apt to impart a dingy hue. The same water that has been used for the finer clothes will do for the coarser. When fresh water is added to the belier, add a proportional quantity of the compound. Corner Queen and Nunanu Ste-
